

Individually Tailored Appointeeship and/or Financial Advocacy Service

FAB Support can offer an individually tailored appointeeship service, either on its' own or alongside financial advocacy package. This can include all of the usual aspects of appointeeship, together with a financial advocacy service agreement that reflects the strengths and needs of the individual. This can include intensive support with some elements of an individuals' finances and less intensive support where it the person requires less assistance. This works best for individuals whose ability to manage their own finances can fluctuate, but where either for their own development or where a best interest decision has agreed they should manage some of their money themselves.
